

women +film festival

Join us for the 2018 8th Annual Women+Film Festival!

APRIL 10 - 15 2018

The Women+Film Festival is a six-day showcase of documentaries, narratives and short films celebrating the best in women-centric programming.

The Festival includes panel discussions, in-person guests and receptions while highlighting thought-provoking, inspirational stories of women from around the world. The festival features Opening and Closing Night receptions and a VIP reception for filmmakers and passholders. The festival is a part of the Denver Film Society's year round Women+Film program, the mission of which is to promote films for, by, and about women to engage with the audience, build community, educate and inspire. The Women+Film Festival features a director in person; a post-film audience discussion; and a social reception.
